NEW TRACK TO BRING MORE CLASS OUT HERE

By J. W. MARCHBANK

Broad vision has prompted the California Horse Racing Board to grant a provisional permit to the Golden State Jockey Club to conduct a meeting next summer at Los Angeles. The move is an altogether wise one. We need more plants both north and south to accommodate the throngs that have been showing an interest not only in the racing itself but in breeding, a necessary concomitant to the upbuilding of the sport.

It was because of the prospect of the development that has come in the last three years in California that I determined upon instituting races that would help materially in that very development. It is nearly two years since I made the announcement the first Tanforan Futurity would be run in 1938. My purpose in founding the Tanforan Futurity (open to foals of all the world) was twofold: to improve blood stock in the state and also as a measure in encouraging Eastern owners to bring out many older horses when coming West to fill engagements in such a two year old event as the Tanforan Futurity.

I am heartily in favor of summer racing in Los Angeles because under the new order of things many stables now leaving California in the spring for the Eastern circuit will stay in this sector. Besides, even the largest establishments will have two divisions, the Western remaining out here the year round.

People have the opportunity of going to the theater almost every month in the year in such a metropolitan center as San Francisco or Los Angeles, so why deprive the homefolk and the ever increasing number of tourists to this sunny land of the chance to go to the races? Good shows, whether on the boards or out at the track, are exhilarating for all of us.

NOTED DOCTOR VISITS COUNTY

Comments Favorably On Work of Health Department.

Colonel Weston P. Chamberla'n, U. S. Navy, retired, formerly assistant to Surgeon General Ireland, and holder of the Distinguished Service Medal for World War services, recently accompanied Dr. J. P. Russell, acting health director of San Mateo County, on a tour of inspection of the various health department units, including the Social Welfare Department and the County Rel'ef Home.

Colonel Chamberlain, who is a recognized authority on sanitation, preventive medicine and public health work, expressed high praise of the county health organization and its administrat'on, comparing them favorably with similar departments throughout the country.

Dr. Russell was captain in the Army Medical Corps, and attached to Colonel Chamberlain's staff while the latter was chief health officer of the Panama Canal Zone.

In the near future Colonel Chamberlain will visit the Community Hosp'tal, the county's public health laboratories and the migratory workers' camps along the coastside, which have won high praise for the county health department this year.

AN ANONYMOUS WORD OF THANKS

A week ago last Wednesday, three passengers on a Daly City street car were inquiring for an address on Irvington street. Another passenger, a young woman returning from work, volunteered the desired information. She also urged that these visitors, a mother and two sons, the latter aged ten and seven, call later at her home on Templeton, so she might learn their success in locating their relatives and incidentally she suggested that they partake of her hospitality and enjoy a cup of coffee with her.

This mother regretted that her stay was too short to allow her this privilege, but she will never forget the kindness expressed to her, a stranger who felt at that moment very far from home, being a resident of Ill'nois. She believes all Daly City people are just like that. The words of helpfulness and goodfellowship often prove to be elastic—stretching over the miles as a lovely memorial, never to be forgotten.

The true western spirit of covered wagon days is still alive. May we cherish it always.

SAN BRUNO PAIR ARE MARRIED

TRUCK CARRIES ALL EQUIPMENT

New Vehicle Of Daly City Plumber Contains Complete Workshop

Wheels, wheels everywhere, even homes have taken to wheels, for on the highway and byways these days may be seen innumerable house cars of various designs.

The motor vehicle can be a wonderful benefit to mankind. For example, the new and beautiful orange colored trucks of A. M. Harrison is fully equipped with plumbing tools and supplies ever ready to bring efficient service to your very door.

We are always glad to see one of our citizens launch forth on an improvement or some new business venture. A new truck like a new store does ts part in building up a better Daly City. We extend congratulations to Mr. Harrison and wish him success n his efforts to give better service to his patrons.

CORNERSTONE LAYING PROGRAM

An elaborate ceremony at which county, state, and federal officials will all take a part, is scheduled for August 18 at the time of the cornerstone laying of the million-dollar live stock pavilion at Visitacion Valley.

Prominent off'cials slated to appear are Governor Frank F. Merriam, Mayor Angelo Rossi of San Francisco, several members of the County Board of Supervisors, and a large delegation of other San Mateo County officials.

Those unable to attend the ceremonies will be able to listen in on their radio, as the program will be broadcast at 11 a. m. over a nat'onal network.

A resolution passed by the board of directors of the Agricultural District 1-A at the meeting in San Francisco provided that "all skilled labor for the project, when available, shall be drawn from San Mateo county."

San Mateo's contribution towards the project was $50,000.

FLORAL FIESTA SPACE SOON WILL BE ABSORBED

Floor Area Set Aside Found To Be Inadequate And More Has Been Added

With reservations made by only a few Daly City florists for space at the second annual San Mateo County Products and Floral F'esta, Martin Poss, general manager, warned today that already more space has been reserved than used by exhibitors last year.

To take care of the increased number of exhibitors, Poss said that the fiesta committee has provided 30,000 square feet more of floor space to the available room at the Bay Meadows race track in San Mateo.

Space can be reserved up until the time the show opens on October 2, but reservations for good locations will soon be f'lled.

In addition to the beautiful flowers and diversified agricultural products for which San Mateo county is noted, there will be many industrial exhibits this year. Bes'des, merchants are planning novel exhibits of building and home appliances.

The Fiesta commission announced today that committees are busy at work on all departments of the show. That the exhibits will be bigger and better than ever seems assured; keen interest is being taken in the pageant and nine San Mateo county girls have already entered the Ambassadress of Good Will contest.

The winner of the contest will be crowned the Ambassadress of Good Will to the Texas Centennial Exposition and will receive a trip for herself and chaperone with all expenses paid to Dallas.

REGULAR MEET FOR AUXILIARY

Plans Made for Successful Termination of Activities For Year.

Daly City Unit No. 410, American Legion Auxiliary, held their regular meeting on Thursday of last week in Legion Hall. Plans were laid to carry on the work of the organization for the coming year. The president, Mrs. R. L. Crane, named her chairmen and committees and although many of the members are still away, this first meeting of the new term proved most enthusiastic.

The annual Department convention opens in Hollywood on Monday of this week, closing a successful year n Legion and Auxiliary circles. The registration of Legionnaires, their families and members of the Auxiliary already totals more than seventy thousand, and it is believed in Legion circles that this will be the largest representation ever to attend a state meet.

This city will have a large attendance this year. The accredited delegates from Daly City Unit are the president, Mary Crane; junior past president, Hilda Prziborowski, and treasurer and child welfare chairman, Lott'e Chapman. Catharine Foreman, Marcie Trier and Alice Reilly are alternates.

Mrs. Marcie Trier, the newly elected district president from Daly City Unit, was ratified and installed on the convention floor on Wednesday.

The next regular San Mateo County Council meeting w'll be held in the Burlingame Legion Hall on Friday, August 21. Convention reports will be read and a large attendance from Daly City Unit is requested by the president.

TO TALK OVER APPROPRIATIONS

The Board of Supervisors, at its meeting this week, balked at "blind" assessment of the county for a new unit of the Ocean Shore highway in Santa Cruz county, and asked for a conference with directors of joint highway district No. 9.

A. V. Bowhay, assistant to the San Francisco city engineer, appeared before the board to ask appropriation of $15,000 in the new budget for San Mateo county's share this year for the Davenport-Waddell beach sector in Santa Cruz county.

Supervisor Al Witt Jr. declared that 't'he county would be buying a pig in a poke if we put up that $15,000 without knowing precisely what we're getting for it."

He thereupon moved that the directors be asked for a conference, which was passed.

The highway district's request for more than $6000 for right-of-way on the Santa Cruz project was also postponed.

POLITICAL ADVERTISEMENT

POLICE AGENCIES, JUVENILE BOARD LAUD JUDGE COTTON

Police department chiefs in San Mateo county cities, together with Sheriff James J. McGrath, believe Judge Aylett R. Cotton, who seeks to retain his high office at the August 25 election, to be one of the ablest juvenile court jurists on the bench.

Judge Cotton's understanding method of handling the youth of the country, who come before him in court, his kindly and sympathetic attitude, his fatherly advice and his sincere interest in children generally have worked wonders with San Mateo county's juvenile problem, according to these officials, who constantly come into contact with such problems. Voluntarily they asked to be placed on record as paying tribute to Judge Cotton's fine work with their youthful charges.

Among the county police chiefs joined in this impressive endorsement of Judge Cotton's work are:

John J. Harper, Burlingame.
Claude M. Hirschey, Hillsborough.
J. Edward Farrell, Atherton.
Louis Belloni, South San Francisco.
Fred A. Johnson, Belmont.
Thomas F. Burke, San Mateo.
Clement Collins, Redwood City.
James Reardon, Daly City.
William Maher, San Bruno.
Edward J. Wheeler, San Carlos.

Taking a similar stand to that of the police heads in the San Mateo County Probation Commission, which deals extensively with juvenile problems. The Commission, headed by Chief Harper, is enthusiastic in its praise and support of Judge Cotton. The members, who unanimously endorsed the judge, are:

Chief Harper, Chairman, Burlingame.
Mrs. Myra Peck, So. San Francisco.
John Gill, Redwood City.
Col. Charles N. Kirkbride, San Mateo.
Mrs. Theresa Altieri, Colma.
R. T. Gallagher, Burlingame.

BUREAU OF PLAYS OPENED BY MRS. CONVERY IN SSF

Famous Writer To Maintain Bureau To Assist Authors.

Mrs. Bryde Therese Convery, of South San Francisco, well known author and playwright, whose latest success, "Eliz's of Youth," has just been accepted for production by the Stage Plays Incorporated of New York City (with contract and advance royalties), and who has another play now running with the Pelham Court Playhouse in London, England ("Cruise de Luxe" is the title), and who also had Broadway and Holywood successes chalder to her name, will open a bureau of plays this fall (presumably about October), in San Francisco, where she will receive plays for criticism, and will also give advice to prospective playwrights upon marketing their works.

As Mrs. Convery has been writing for the stage both in this country and in England for over 20 years, she is well qualified to advise all asp ring playwrights, and she invited them to send in their plays for criticism and help in placement of same.

For the month of September, up to the time when her new quarters are opened, Mrs. Convery advises authors to send in manuscripts for criticism and advice to her South San Francisco address, 548 Grand avenue (or to telephone for interview at South San Francisco 687).

Mrs. Convery has decided to open the Bureau, owing to several requests from her friends and the public in general. Mrs. Convery also coaches writers in radio play technique, as she has written and directed upwards of 25 plays for radio during the last two years. "Here Comes the Bride," "Actor's Luck," "Sauce for the Goose," "Broken Playthings," and a number of other short radio plays have been presented successfully over the air.

All asp ring playwrights, and those who have plays ready for production, but who have not been successful up to the present, get in touch with Mrs. Convery. Phone South San Francisco 687 for a private interview between the house of 11 a. m. and 3 p. m.

Why Battery Needs Aid

The early car demanded of the battery only that it assist in cranking and supplying headlamp current. Its work has been increased enormously. It now is called upon to operate the starter, radio, spot light, cigar lighter, horn, signal light, dome light, instrument light and step light.

The modern battery is better than its predecessor, but its heavy work still requires that the owner give it regular attention.

SET BACK GENERATORS

Burning the lights to keep the battery from overcharging when taking a long trip is less satisfactory in the long run than having the generator charging rate reduced. The latter not only obviates the danger of overcharging the battery, but also reduces the burden upon the generator.

In these days of radio use on long trips, of course, the necessity for either burning the lights or reducing the charging rate is minimized.

SOME HEROES AND EXPLOITS OF EARLY TIMES

(By Maude Larue Ives)

Foster lived between the years 1826 and 1864 and, although his life spanned only thirty-eight years, he accomplished a complete life time's work which will continue to live on and on through the years. During his short existence he composed about one hundred twenty-five songs, more than any other American has written. "My Old Kentucky Home," probably with the exception of "Home Sweet Home" the most widely translated song in the world.

Nearly a fourth of his songs are negro melodies, and the remainder are sentimental ballads; both the music and words of all were of his own composition. It was generally supposed that no one not born in the South could write negro melodies such as were composed by Foster, who was a native of Pittsburg, Pennsylvania.

Foster had no formal training in music, was of a retiring nature and cared little for fame and money, but could not escape popularity. It is said that for "The Old Folks at Home" (The Swanee River)" he received only $500; his publisher netted over $10,000 for his "The Louisiana Belle" and "Old Uncle Ned." Other songs which brought him great fame Dog Tray," "Way Down South Where de Cotton Grows," "Old Black Joe," "Willie We Have Missed You" and "Come Where My Love Lies Dreaming." He preferred his sentimental songs to his plantation ditties, but are "O Susanna," "Nelly Bly," "Old it is for the latter that he will be most gratefully remembered.

It is interesting to note that Stephen Foster never saw the inconspicuous Florida River the Swanee, whose name he made immortal in "The Old Folks at Home." He wanted the name of a Southern river, in two syllables, and a search of the map revealed "Suwanee."

Scotland Builds Highways

The Scottish Highlands are to have 1200 miles of new or rebuilt roads within the next few years, according to information received by the National Automobile Club.

For years, the sparsely populated counties of Northern Scotland, which contain some of the country's most attractive scenery, have been struggling to open the country to motor travel. Already, much has been accomplished. The road to John o'Groats is excellent from Brora onward. Further south, there is the splendid new Glencoe road.

California will stage a five-day birthday party at the San Diego Exposition September 5 to 9, the closing date.

IF STARTER FAILS

Should the starting motor fail to work the first thing to do is to test the condition of the storage battery.

A simple test of the battery is to turn on the lights and try the starter. If the lights do not dim the battery is probably charged and is not the source of trouble. Next, test for open circuit at the starter switch and starting motor terminals. Look for glazed commutator, and see if brushes are bearing properly.

These checks assume, of course, that the trouble is not caused by starter gear and flywheel gear becoming jammed.

CALIFORNIA TAXPAYERS . . .
GUARD YOUR HOMES!
Cleverly-baited and deceptively-worded, the ruinous "SINGLE TAX" will appear as PROPOSITION NUMBER 1 on your November ballot.
"Single Tax" is an exorbitant LAND TAX, deliberately designed to DESTROY HOMES AND FARM OWNERSHIP! California voters have conclusively demonstrated at seven elections that they would not KNOWINGLY vote for it.
But the "Single Tax," at this year's election, is flying under false colors, it is DISGUISED as a Sales Tax Repeal Act—a definite, flagrant attempt to trick the voter and bilk the taxpayer!
THIS IS YOUR FIGHT
This is not a political issue. It is a fight for financial self-preservation. It is YOUR CAMPAIGN—the campaign of every home-owner, every farmer, every business man, every renter and every worker!
Single Taxers believe that the private ownership of land is "against natural justice" . . . that ALL LAND SHOULD BELONG TO THE STATE, as it does in Soviet Russia . . . that YOU SHOULD RENT THE HOME YOU NOW OWN.
By the brazen expedient of MAKING TAXES HIGHER THAN THE TAXPAYER CAN PAY, it is planned to CONFISCATE YOUR PROPERTY. The average rate would be $11.25 per $100 the first year—increasingly higher in succeeding years! Such rates are PLAINLY CONFISCATORY!
Join your local Committee Against the "Single Tax," or write to this Association for further information . . . Guard your homes against tax cranks and social revoltion . . . PROTECT CALIFORNIA FROM TAX DISASTER!

U. S. STILL FREEST COUNTRY IN WORLD

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Baseless charges against the Roosevelt administration by the so-called American Liberty League (some misnomer, we'll say) have been routed by a thorough study of the allegations by a committee of the American Bar Association. The gist of the report of the committee is that the civil liberties of American citizens have not been touched in the slightest degree by the governmental policies of President Roosevelt.

The investigation by the legal minds was not made in a few weeks or a few months, it extended over a PERIOD OF TWO YEARS.

Lawyers are trained thinkers; they make their living by thinking; so when they set to work to find out what's what in the naton they did a remarkably able job.

Concerning constitution guaranties of freedom of speech, of the press, of assembly and of petition, the report of the highly capable committee says:

"The careless assertion that the policies and practices of the federal administration either challenges or infringe political rights of the citizen have no justification.

* * *

Long ago, Noah Webster defined "free" as follows:

"In government, not enslaved; not in a state of vassalage or dependence; subject only to fixed laws, made by consent, and to a regular administration of such laws; not subject to the arbitary will of any one in authority; as a free state, nation, or people."

That's just the exact status of things under President Roosevelt r'ght now. Let's keep it that way, by re-electing the "chief" at the November election.

* * *

John D. Barry, a brilliant columnist, had an illuminating sentence at the end of an article in the Daily News the other night that I am taking the liberty of quoting:

"It is a great discredit to an economic system that makes relief necessary for millions willing to work and unable to find work."

My point is just this: President Roosevelt has taken the bull by the horns, as the homely expression has it, and is working manfully to bring about such conditions every employable person in the country will be put into decent employment. He needs four years more to round out his program. Why hesitate about returning him to the White House?

Here is another point a bit technical, I guess. The Republicans started their campaign altogether too early and have about run out of ammunition. Like Napoleon, President Roosevelt starts late, but when he does set his campaign all his blows are telling ones. Exploitation experts found out long ago that there is a lot of psychology in publicity efforts and too early a start is almost worse than none at all.

When is Governor Landon going to get out from under the plethora of words that apparently prevents the public knowing his position on any vital problem. Can't he quit beating around the bush on any subject whatever?

A well-informed newspaperman has gone to the trouble of examining some of the ambiguities for which the Kansas governor is noted. He particularly takes up conditions in Landon's own state. For example, something has been said more than once by the presidential candidate about chld labor, but Kansas is not one of the 24 states that have ratified the child labor amendment. Another thing that Governor Landon discusses not too exhaustively or too clearly is old age pensions. While 36 states have old age pension laws approved by the United States Social Security Board, Kansas gives its needy old people county relief, supplemented by federal emergncy funds.

Kansas has no state aid for education and some of the teachers may not be paid at all this year.

In all frankness, do we want that kind of an economist in the White House.

LESSON SERMON OF CHRISTIAN SCIENCE

Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniqu'ties; who healeth all thy diseases." These words from Psalms comprise the Golden Text to be used Sunday, August 16, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Soul." Included among the Scriptual selections will be: "How amiable are thy tabernacles, O Lord of hosts! My soul longeth, yea, even fainteth for the courts of the Lord: my heart and my flesh crieth out for the living God. . . . Blessed are they that dwell in thy house: they will be still praising thee" (Ps. 84: 1, 2, 4,).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "As human thought changes from one stage to another of conscious pain and painlessness, sorrow and joy,—from fear to hope and from faith to understanding,—the visible manifestation will at last be man governed by Soul, not by material sense" (p. 125).

Fresno tallied once in the first, third, sixth and seventh frames, but lacked the necessary punch at crucial moments.

Hal Stoeven, San Mateo first sacker, supplied the heavy hitting He collected three hits in four trips to the plate.

STATE FAIR WILL OFFER REDUCED RATES BY SCRIP

California's glamorous state fair in Sacramento, September 5 to 14, can be seen for 25 cents.

The bargain price was made available this year by the State Fair Board for the third time, when it determined to issue scrip books containing 10 admissions for $2.50. The regular admission price is 50 cents. This is reduced by half when 10 admissions are bought in scrip.

In this connection, A. B. Miller, board president, explained:

"The plan of providing a 25 cent admission through purchase of the $2.50 scrip books has worked so successfully in the past two years that we plan to use it again. It is the best system that we have yet devised to enable every person in the state to see the fair at an extremely low price. Scrip really makes the exposition the people's fair."

Harold E. Smith, who is in charge of scrip announced the sale of reduced admissions will start in August, the actual date to be announced. The sale will be handled as formerly by 4-H Club and Future Farmer groups and by business houses throughout the state.

Scrip is good for admission to the grounds or grandstand, or horse show, or parkng lots. Smith's advice is to make plans now to buy scrip, so that the promised greatest fair in the state's history can be seen for half the regular price.

FOUND PANACEA BY VACATIONING

Sidney White of 420 Irvington street, has found an elixer of health in the Hot Mud Springs of Calistoga. He and Mrs. White have been spending a week at this resort and, although the weather there covers the three degrees of comparison—hot, hotter, hottest, they enjoyed their stay during the past week.

Their son Stanley is keeping the home fires burning during the absence of his parents, while convalescing from a broken rib injury, sustained some time ago.

RETURN FROM TOUR OVER NORTHWEST

Mrs. Grace L. Augustien and son Charles of Evergreen avenue and her sister, Miss Myrtle Saylor of Twelfth avenue, San Francisco, returned home, Wednesday afternoon of last week, after spending three weeks motoring through the western United States and Canada.

During their tour they visited Mt. Rainier, Glacier, Yellowstone and the Grand Teton National Parks in the United States and Kootenay, Banff and Waterton Lakes National Parks in Canada.

ENJOY OUTING

A group of friends motored to Woodside, Sunday, where they enjoyed a delightful day's outing.

Those in the group were Mr. and Mrs. H. Sari and sons, Henry and Paul of Risel avenue, Mr. and Mrs. F. Blume, Mr. and Mrs. J. Maranelli, Mr. and Mrs. J. Marchi and daughter Lois and Mrs. A. Selmi.

Daly City Epic Club To Sponsor Rally

EXPERIENCED HOUSEWIFE CLUB

(By Maude Larue Ives)

So many tasty dishes can be prepared from corn, and it is one of the most anticipated summer foods. It is enjoyed, too, during the winter months, its canned flavor counterfeiting so closely its freshly harvested sweetness.

Mrs. A. Meeth, 368 Westlake avenue, is now a charter member of our club and the following recipe is original and different.

To Cook Corn

Clean and wash corn after removing husks; trim cobs, then rewrap with the husks (the more the better) and tie them around each with a string. Place in a deep sauce pan, having a thick layer of husks at botton and top. Cover with cold water to which has been added a whole cut lemon and a dash of sugar. Bring slowly to the boiling point, let simmer gently for a few minutes, and then keep hot, but not boiling.

This can be reheated slowly the next day, and is even bettter than on the first day. Do not remove husks until ready to serve, as they preserve all the flavor and whitness and make the kernels tender. Hours of standing in the hot water only improves the vegetable.

This is the way the Indians in tropical America cook their corn.

Buttermilk Waffles

(From the Farmer's Wife)

Beat two eggs well and add two cupfuls of buttermilk and one tablespoon of sugar. Sift together two cupfuls of flour, one-quarter cupful of cornmeal, two teaspoons baking powder and one teaspoonful each of soda and salt. Add to the liquid ingredients and stir lastly into batter two tablespoons of melted butter. Beat well and bake. This recipe makes eight luscious waffles. The cornmeal blends itself illusively and your family will probably ask "What it is?"

Work Easer

(From Mrs. A. Meeth)

Hold a piece of bread in your mouth while grating or peeling onions to keep the tears away.

CHILD CELEBRATES EIGHTH BIRTHDAY

Marbara Ford, daughter of Mr. and Mrs. Gus Ford of Parkview avenue, was guest of honor at a party given at the home of her parents, Monday afternoon of this week, celebrating her eighth birthday.

YOUTH RELATES CAMP LIFE AT TWIN FALLS

Lambrose Balopulos, In Letter To Tribune Tells Of His Experience. The Letter Follows In Full.

Dear Mr. Wheeler:

After a few days of camping at Twin Lakes in the high Sierras, three of us boys, Ken Devine, Lloyd Forbes and myself, decided to go on a three-day hike to Lake Tahoe.

With the permission of Chief Barrer, we packed up all of our euqipment as light as possible and we were ready to leave.

We left Twin Lakes on Monday, the 27th, at 8:30 a. m., and were on our way to the thirty-five-mile trip to Lake Tahoe. We rowed across the lake and from there went up the Meiss pass till we reached Meiss lake. We drank some water and then were on our way till we reached Round Lake, where we rested and ate our lunch. After bathing our feet and washing ourselves, we started down the grade till we reached the Upper Truckee river.

Without stopping, we marched on till we finally reached Echo Lake at about 4 p. m., and we decided to camp there overnight and be on our way to Tahoe the next day.

This part of the county was made up entirely of volcanic organism and so it made hiking difficult at times, although it was passable.

After arriving at Echo Lake we found a suitable camping site and proceeded to set up the camp. After supper we decided to explore the surrounding regions. We found that Echo Lake was divided into two parts, lower and upper. Together, they covered an area of nine square miles.

The next morning we arose early and set about doing the usua camp duties. We met some Burlingame friends there, who courteously invited us to use their lake euipment. Since the weather was warm, we had a very enjoyable time swimming, motorboat riding and aqua-planing.

Since our time was limited, we thanked our friends for a very enjoyable time and at 10 a. m. we dropped over the ridge and hiked up to Tahoe, which was eleven miles away. Immediately after arriving, we set up camp on Mr. Richardson's property and proceeded to take a wel-earned swim. The two days that we were there were very enjoyable. We lay in the sand and went swimming most of the time. Since that was my first trip to Tahoe, I took several short hikes to acquaint myself with the place. We were going to leave Wednesday afternoon for Twin Lakes, but a friend of ours, Al Rider, a former Scout, told us to stay at Tahoe that day and he would take us to Twin Lakes Thursday afternoon, since he was going up that way. We agreed and enjoyed ourselves an extra day there.

We left Thursday afternoon for camp and reached Twin Lakes in a very short while. After the trip to Tahoe we took a short hike to Round Top, at which the altitude was 10,400 feet above sea level, compared to 7,900 feet at Twin Lakes. We wrote our names at Round Top, which is the custom, and after eating our lunch there we returned to camp later that day.

We left for home Thursday morning, but the memories of Twin Lakes in the Sierra Nevadas, and my trip to Lake Tahoe will never leave my mind.

Besides the enjoyment one gets at camp, he gains some experience which will be a great asset to him in later life. It is my hope that I may return to mountain camp next year, but with some Scouts from my troop, and enjoy myself as much as I did this year.

Very truly,
LAMBROSE BALOPULOS.

New Coastside Tavern Celebrates Opening Snday

Mr. Joe Caccapaglia, well known tavern operator from the Ocean View district, San Francisco, has recently completed a modern new resort a few feet from the ocean at Rockaway Beach. The resort, boasting a large bar and spacious dining room, has been appropriately named the "Breakers."

A large sun porch overlooking the broad Pacific, is a feature of the new place.

Sunday, August 10, at 12 noon, a free barbecue featured the official opening of the place, which promises to be one of the coastside's bright spots.

When Grinding Valves

Good valve grinding jobs involve more than just refacing and reseating the valves.

If done right valve grinding should include a thorough inspection of valve springs and guides. Springs should have good uniform tension. Weak springs will not close the valves properly, particularly at high speed. Loose or poorly fitting valve guides will reduce motor efficiency.

LOOSE PISTON WEAR

Wear on cylinder walls is made more rapid by loose pistons. Wear is usually faster in the space where the piston rings travel, but if the pistons are loose greater wear will occur on one side of the wall near the top due to the piston striking at an angle when the explosion takes place.

Sometimes similar wear will occur at the bottom, due to the connecting rod being in an angular position as it pushes the piston up against compression.

CLEAN AIR CLEANER

Many a car owner could increase his gas mileage if he would have the air cleaner on his motor serviced.

A dirty cleaner "chokes" the carburetor intake, causes poor performance and excessive gas consumption.

America's foremost treatrical spectacle, a $350,000 ice skating carnival, is now presented nightly at the San Diego Exposition.

AROUND THE FIRST TOWNSHIP

The political pot is beginning to boil, although to date we haven't heard any mud slinging in local politics. Not only have the local candidates kept the campaign clean to date, but opposing candidates have actually been seen buying drinks for each other and conversing in the friendliest of terms at public gatherings. Not so with national politics.

The coastside is at last coming into its own with new highways, railroads and what-nots, meaning rapid development of the county's most fertile and productive section.

HUB CAP NEEDED

Serious damage may result from driving without a front hub cap.

On certain models the hub cap holds the grease for the front wheel bearings. When the cap is off grease may run out and dirt and grit may get into the bearings.

RALLY TONIGHT FOR CANDIDATES AT BAYSHORE CITY

Voters League To Entertain All Candidates At Monster Meeting

The Bayshore Voters League, an active civic organization, has extended an invitation to all candidates to attend a huge candidates rally to be held in their spacious new hall on Acacia street.

The League, organized about four years ago, has been active in civic and political affairs and has participated in many skirmishes, most of which were victorious. The organization is headed by John Patrick Lawson, mayor of the little city.

WILD WEST SHOW AT PACIFIC CITY

All Sections Of County To Be Represented At Improvement Club's Free Barbecue.

On Sunday, August 23, a caravan of vehicles including stage coaches, hay wagons, buggies, trucks, bicycles, and modern and ancient automobiles, besides approximately 100 horses with riders, will come from all sections of San Mateo county and San Francisco for the monster picnic and "Wild West Show" at Pacific City.

By all indications and advance ticket sales, the affair will be well attended, according to the committee of the Peninsula Improvement Club, sponsors giving the affair, at which approximately 30 barbecued lambs will be given away free.

Ten-gallon hats, shaps and bandana handkerchiefs will be the dress order for the day. Competitive events of all kinds from foot races to a race between a four-horse stage coach and a four-horse covered wagon will take place. Hobble races, sack races and a blindfolded race are some of the other events that will give everyone a good laugh for their money. Trick and fancy horseback riding is expected to take a prominent part in the program.

Those wishing to enter any of the livestock competitive events are urged to register before August 22 with Ed Allen or Ed Schwerin, by phoning RAndolph 8234, RAndolph 4000, or RAndolph 7624, in order that their name may be entered on the program. Entry may also be made in person by getting in touch with Mr. Schwerin at his stables at Bayshore City.

RAIN SPOTS ON HOOD

Rain drops left to dry on a hood that is hot from a long run may cause spots that are difficult or impossible to remove.

This can be avoided by sponging off the hood with a chamios and wiping dry immediately after being out in the rain.

WATER COMPANIES LIGHT TERRITORY JURISDICTION

Trouble again flared up this week between the two rival water companies in Brisbane when the Henry Water Company employed five men to lay pipes in the territory of the Linde Water company. Ted Linde, operator of the system in which the other company attempted to invade, obtained an injunction to prevent them from invading his territory.

The trouble started when Linde was unable to serve water to several homes which are at too high an elevation to be served by his gravity system. In order to provide them, Linde offered to install a pressure system, an elevated tanq, or take a service fro mthe other company and re-sell to the consumers. The Henry company refused Linde the service, although they had assured the Railroad Commission, under whose jurisdiction the utilities operate, that they would. Instead, the started to lay water lines in the street to serve the people themselves. According to Linde, the action by the Henry company was a direct violation of a court order, and in violation of a ruling by the Railroad Commission, giving him (Linde) exclusive right to serve the consumers living within the territory in uestion. Although unable to serve their own consumers properly, not having an adequate supply of water or proper facilities, the Henry company should improve the service in their own territory before trying to invade someone else's, according to Linde.

Every variety of palm in the world is on the grounds of the 1936 California Pacific International Exposition at San Diego.

MINING NOTES OF VARIOUS SECTIONS

Preparations to boost British Columbia's mining industry during Vancouver's Golden Jubilee celebrations this summer are progressing most satisfactorily, report officials of the B. C. Chamber of Mines. The elaborate display of minerals at the chamber's headquarters in the B. C. Mining Building is now being overhauled and re-decorated. Many new samples of ore are arriving from all parts of the province, particularly from the Bridge River, Hedley, Cariboo, Omineca, Portland Canal, and a collection of 65 ore samples is being sent in from the mines around Nelson, by the Chamber of Mines of Eastern B. C. Samples of high-grade silver ore have also been received from the Beaverdell Camp. It is planned to exhibit placer gold as recovered from the Cariboo streams.

When It Costs So Little..Why Not Own The World's Finest Motor Car

AFTER ALL — when you may own an Airflow Chrysler for as little as $1345 (factory list) — why not enjoy its matchless performance — its drawing-room luxury — its unequalled safety?

No other car is like it—no other car *can* be like it. Your first fifty miles will tell you this—beyond question. You ride on deep, wide, divan-like seats, cradled *between* the wheels, not *over* them. Airflow's weight is so evenly distributed—so perfectly balanced—you seem to *float* along rather than ride. Spring action is slowed into long, easy glides. Airflow Chrysler's body—truly streamlined—is the safest body in the world. Rigid steel girders surround you, top, sides and bottom. Chrysler's time-tested hydraulic brakes afford lightning stops. Economy? Owners report 16 to 20 miles per gallon with Chrysler's famous overdrive that cuts motor revolutions one-third at cruising speeds . . . saves gasoline, oil, motor wear . . . gives unbelievable smoothness.
